RESELO

RESELO RUBBER
PERFORMANCE OUTSOLE
EU VALUE CHAIN

From forestry side-stream to sustainable rubber; **these die-cut test sheets can be used as outsoles for brands with supply chains in the EU who need extraordinary durability, grip and resilience in demanding conditions.**

Order our test sheets for outsoles incorporating Reselo Rubber, a patented technology that replace petroleum rubber ingredients and increase performance. Our *PERFORMANCE* outsoles contain **25% (weight percent) renewable materials** and are already on the market. The solution is **ready for implementation,** as compound or readymade outsoles, in your existing production chains in the EU.

Our innovative approach, third-party approved sustainability claims, and ability improve performance open a unique opportunity in the rubber outsole space. We would love for you to tap into it!

Stand out amongst competitors with products made with Reselo ®, ready to be implemented into your existing production.

DATA SHEET
PERFORMANCE OUTSOLES

- Abrasion resistance: 129 mm^3
- Hardness: 72 +/- 2 Shore A
- Density: 1.1 mg/mm^3
- Better tear strength (16 N/mm)
- Comfortable due to good damping properties
- Very good slip resistance on dry and wet surfaces

- ✓ PLUG & PLAY TECHNOLOGY
- ✓ UPCYCLED FORESTRY WASTE
- ✓ INNOVATION CHAMPIONS
- ✓ DATA-BACKED SUSTAINABILITY CLAIMS

We enable positive impact through material innovation, close collaboration and strong partnerships. **Join us on the journey!**
